## PIZZAS

Here at Santa Maluco we focus on the big three philosophy, **Cheese, dough and sauce**. We believe that if these three are of excellent quality then we have the potential for some amazing creations and a consistently tasty product. We import the highest quality pulped tomatoes from Italy, grown in volcanic soil giving them a sweet and fragrant taste. We then blend the further with very traditional herbs to make our signature pizza **sauce**. Our **cheese** is a smooth silky fior de latte mozzarella with a high melting point and a subtle sweet cheesy flavour. The perfect accompaniment for any topping. Finally our **dough**. We aim for a soft but sturdy pizza dough, mixing old traditions with modern techniques.

## WHAT IS RODIZIO?

Rodizio is an 'all you can eat' style of restaurant service common in Brazil. Here at Santa Maluco guests will pay a 'preço fixo' and the servers will bring samples of pizza to each guest at several times throughout the meal, until the guests signal that they have had enough.

The ideal way to enjoy the menu with a large group.
